Dr. William Phelan (right) District Superintendent of BOCES, presents Certificates of Appreciation from each of the four schools to Dr. George Vineyard, Deputy Director, for the Laboratory's participation in the High School Cooperative Education Program. —Humphrey

## HS Co-Op Program Reaches 36 Students

This past May marked the completion of the Laboratory's second participating year in the High School Cooperative Education Program, sponsored through the **Board of Cooperative Educational Services** (BOCES). The Laboratory has, as part of its total training program, given basic skills training and guidance to 36 students from Longwood, Bellport, William Floyd, and Center Moriches High Schools.

The opportunity to earn while learning is a new approach to providing goal direction at the high school level. This workstudy concept permits participating juniors and seniors to attend curriculum classes for half-day and then work part-time during the afternoon in work-training experiences. Here at BNL, students have participated in a variety of clerical and technical training situations. Many of the students have since graduated from high school and now hold full-time jobs in the community or have plans for attending college. Three coop graduates are currently regular employees at the Laboratory, holding jobs for which they received training during their high school days.

#### Safety Equipment

Spectacles are issued on Mondays from 9 a.m. to noon, and on Wednesdays from 1:30 to 4:30 p.m.

Shoes are issued on Mondays from 1:30 to 4:30 p.m., and on Wednesdays from 9 a.m. to noon.

#### **Bulletin Survey**

Statistical data from the Bulletin survey are being developed and comments digested by the computer, with the results to be published in a future edition of the Brookhaven Bulletin.

## Schrafft's To Operate Food Services At BNL

Frank G. Shattuck Company, operator of the nationally known Schrafft's restaurant and motor inn chain, has been awarded the contract to operate the food service facilities at Brookhaven National Laboratory, it was announced today by William S. Webster, Manager of Staff Services.

"After extended negotiations and discussions," Mr. Webster stated, "we have selected Schrafft's in the firm belief that their products, services and skills will prove beneficial to our entire community. Schrafft's has agreed to add many improvements to our present services. . . all of which are designed to create greater dining pleasure for our staff. During the changeover period, which will begin July 12, we intend that there will be no interruption in dining services," Mr. Webster said.

Commenting on the contract award, Mr. Frank Raethle, vice president-Schrafft's service sales in expressing his delight at the opportunity to provide the food service at Brookhaven stated: "We are very proud of many years of experience in operating company, hospital, college and governmental food service installations throughout the country. We now look forward with great pleasure to performing similar services at such an important facility as Brookhaven National Laboratory

'Schrafft's quality ice cream, coffee, and food products will be featured at Brookhaven," Mr. Raethle continued, "with the principal intent being to satisfy the needs and requirements of all employees of the Lab. We hope you will convey to us any ways and means by which we can further fulfill Brookhaven's dining needs."

Manager of the new food service operations will be Anthony Leandra, a Schrafft's veteran of over 35 years service. Mr. Leandra's experience with the Company includes management of several of Schrafft's largest public restaurants in New York... as well as major food service installations for the U.S. Government. Most recently he served as manager of Schrafft's opera-

## O'Leary Named Business Manager

Laboratory Director Maurice Goldhaber announced last week that Dr. William J. Catacosinos, Assistant Director for Business Management and Business Administration, will leave the Laboratory on August 1, to join an industrial firm.

Vincent R. O'Leary as Assistant Director for Financial Planning and Business Management will assume responsibilities for the divisions of Purchasing, Supply and Materiel, Systems and Data Processing, and Photography and Graphic Arts.

James L. Desmond, Senior Budget Analyst, will become Executive Assistant to O'Leary also effective August 1.

Henry C. Grahn, Administrative Officer of the Physics Department, will become Budget Officer of BNL on September 1.

Mr. O'Leary joined the BNL Staff in April of 1957 as Administrative Officer in the Nuclear Engineering Department. In January of 1962 he became Assistant Director of Architectural Planning, and in October 1962, he was appointed Deputy Budget Officer. In July 1966, O'Leary became Budget Officer, and on July 1, 1968, was appointed Assistant Director for Financial Planning.

Mr. O'Leary received his BBA from St. John's University, Brooklyn, and a MBA from New York University. He is a former member of the faculty (evening session) of C.W. Post College, having taught Management and Business Mathematics there for four years. He is an active member of the American Management Association.

O'Leary saw service with the U.S. Army in the Counter Intelligence Corps, Vienna, Austria.

Active in civic affairs, Mr. O'Leary is Chairman of the Board of Fire Commissioners of the Stony Brook Fire District, and is a member of the Boy Scouts of America Troop 117, and merit badge counselor for the Brookhaven area. He worked with the Suffolk County Chapter of the "Support Our Servicemen" campaign in the Three Village area.

Mr. O'Leary and his wife, Barbara, live with their five children in Stony Brook.

James L. Desmond, Executive Assistant to Mr. O'Leary, joined the Lab in November of 1963 as Administrative Aide in the Director's Office, after leaving RCA in Camden, New Jersey as Cost Administrator. In January, 1967 he was appointed Senior Budget Analyst. Desmond received his bachelors degree cum laude in economics from Mt. St. Mary's College, Emmitsburg, Md., and is presently pursuing his masters degree in industrial manage-

Desmond and his wife, Alice, and their seven children live in Middle Island.

Henry C. Grahn came to Brookhaven Laboratory in November, 1958 as Account Clerk in the Fiscal Department. In November 1962 he became Junior Auditor for AUI, and in 1965 joined the Physics Department as Administrative Assistant.

In 1966 Grahn became Budget Officer of the Physics Department, and in 1968 Administrative Officer. While at Hofstra University, where he recently earned his bachelors degree in Business Administration, he was a member of the Alpha Sigma Lambda honor society.

Grahn and his wife, Marie, have three children and live in East Patchogue.

tions at the Vandenburg air force base in Southern California.

Frank G. Shattuck Company has been operating Schrafft's restaurants since 1906. Prior to that time, the name "Schrafft's" had been associated exclusively with the manufacture and sale of candy. In addition to operating restaurants and business food services, Schrafft's manufactures an extensive line of ice cream, frozen food, and bakery products.

In addition to the operation of the cafeteria and the snack bar, the Schrafft's people will cater the Brookhaven Center and the Coffee Truck.

According to Mr. Leandro, two trucks will be used to circulate around the site. One of the trucks will be supplied by

Vincent R. O'Leary

James L. Desmond

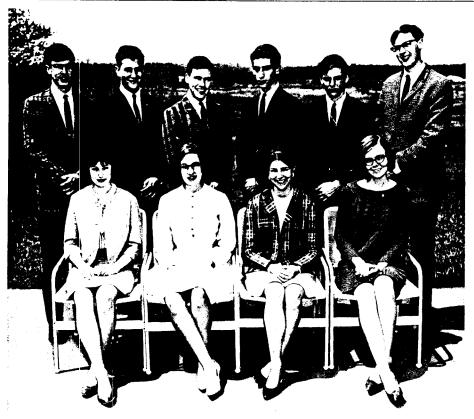

Henry C. Grahn

Schrafft's and one by the Lab. Both trucks will make one round with coffee and cake, and will again come around with sandwiches later in the morning

Leandro and Webster both emphasized that the food served in the cafeteria will be the standard Schrafft's fare, the same as is served in any of the chain's major restaurants. Menus will be printed in the Brookhaven Bulletin starting next week.

On Monday, July 14, the management of Schrafft's invites the Lab community to come and visit the Cafeteria and have a free cup of Schrafft's coffee. Whether you come to browse or to have a meal, on Monday, the coffee at the Cafeteria is "on the

BNL's first AUI Trustee Scholarship winners meet at BNL. They are (left to right): David Sparrow, Linda Dexter, Robert Schaeffer, Eleanor Olson, Robert Stehn, Jonathan Skret, Laraine Rathvon, Paul Semplicino, Carol Barton and John Vineyard.

## Ten Children Of Employees Receive A.U.I. Scholarships

This headline appeared in the May 12, 1965 issue of the Bulletin Board and made AUI history. These ten young people were the winners of the first AUI Trustee Scholarships to be offered to children of regular employees of BNL and NRAO.

Today, these same young people, four years older and wiser, hold undergraduate degrees and the future is at their fingertips.

Carol Barton attended Middlebury College in Vermont. While there, she was a member and treasurer of Sigma Kappa. She was an active member of the Women's Service Organization and Chairman of Middlebury's Girl Scout Council. She graduated with high honors from the history department.

Carol is currently doing graduate work at the University of Illinois where she hopes to obtain her Masters in education.

Eleanor Olson was a member of the 89th graduating class of Grove City College in Pennsylvania. She received honors in her major field, Elementary Education, and graduated Cum Laude, receiving a Bachelor of Arts degree.

While at Grove City, she was a staff member of the student newspaper; a member of the Pennsylvania State Education Association; vice president of Theta Alpha Pi. She achieved standing on the Dean's List for each of the 8 semesters while she was enrolled as an AUI Scholarship stu-

Eleanor was married on June 8 to Clark Rechkemmer and is temporarily residing at Tempe, Arizona.

Laraine Rathvon, a student of romance languages, graduated Magna Cum Laude from Jackson College, Tufts University in Massachusetts. She will start graduate school this fall under a fellowship awarded to her by Georgetown University.

Laraine is presently taking summer courses at the University of Mexico in Mexico City.

Robert Stehn graduated with a Bachelor of Science degree from the New York State College of Forestry at Syracuse. He majored in Zoology.

While at Syracuse, he was a member of the Biology Club, and he participated in several research studies of animal behavior. Robert has been awarded a National Science Foundation grant which will assist him as he starts graduate work in vertebrate neurobiology at Cornell in Septem-

Linda Dexter graduated from Douglass College, Rutgers University in New Jersey with General Honors. She received a Bachelor of Arts degree, with English Literature as her major field of studies.

While at Douglass, Linda served on the Government Association Secretariat, as Assistant Housechairman in her dormitory and later becoming Housechairman; as a Junior Guide for visitors; and co-chairman of the Student-Faculty Coordinating Committee. As a Senior, she was elected a candidate for the Honors Program in English, and served on the Freshman Orientation

Linda maintained her status on the Dean's List throughout her four years at Douglass, and was elected to New Jersey's Alpha Chapter of Phi Beta Kappa. She has received a Fellowship from the Johns Hopkins University where she will participate in the Masters Program in Teaching with English as her major field.

Jonathan Skret spent his first year at Wesleyan College and then transferred to Royalton College of International Affairs, a new educational venture in South Royalton, Vermont. He finished at Royalton this

His plans for the future are nebulous, though they include spending this summer in Vermont, a state he loves and of which he hopes to own a few acres some day.

Paul Semplicino has been attending Brown University for the past four years. To fulfill his requirements toward a Bachelor of Science degree in Chemistry and also Navy Science courses toward his NROTC Scholarship, he will spend one more year at Brown, graduating in June of 1970.

Aside from his academic studies, most of his activities have been in connection with Reserve Officer Training cruises. He spent a summer on a destroyer; went to Corpus Christi, Texas, Air Base for training on Navy jets; trained with Marines at Little Creek, North Carolina; and spent last summer at a submarine base in San Diego. Training is diversified so he can decide for which branch of the Navy he is best suited.

On completion of his undergraduate studies, Paul will become an Ensign in the

Robert Schaeffer entered MIT as a premed student, but transferred to Political Science in his sophomore year. Extending his interest in politics beyond theory, he held various offices in his house and student government, was campaign manager for several successful candidates for class office, and was active in Students for Mc-Carthy during the last presidential campaign. He was Senior Marshall at Commencement. During all four years he was a member of the yearbook staff, and in his senior year he became Editor-in-Chief.

Because of the draft, Robert's plans for the future are uncertain. He has had to decline a two-year graduate Woodrow Wilson Fellowship at Princeton, and has applied for Peace Corps and Vista. Until September he will be working at MIT as Special Assistant to the Vice President for Special Problems.

John Vineyard graduated this June from the Arts and Science Branch of Oberlin College. He majored in English and was editor of Oberlin's literary magazine.

David Sparrow graduated from Princeton University, having majored in Physics.

Since these first scholarships were offered, forty more scholarships have been awarded to children of BNL employees. Each scholarship is in an amount up to \$900 per year, applicable against college expenses, renewable for an additional three years or until requirements for the bachelor's degree are completed.

#### Here and There

Dolores del Castillo :

Frank German (Biology) received his MBA from Adelphi last month.

John Deitz (Safety Services) addressed a meeting of the Brookhaven Town Fire Chief's Council recently. The subject of his talk was "Computers - What They Mean to the Fire Service."

Harold Hahn and Henry Halama (both of Accelerator Dept.) were the inventors of "Microwave Deflection System for Superconducting Particle Separator," for which U.S. Patent No. 3,452,191 was granted to the AEC on June 24, 1969.

T.V. Sheehan (DAS) attended the recent Summer Annual Meeting of the ASME held in New York. This meeting marks the turning point of the Society's administrative year at which time incoming officers are installed in their new Committee posts and retiring Chairmen are recognized for their past efforts. Mr. Sheehan is Chairman of the Papers Review Committee this year.

William J. Hartin (I&HP) presented a paper entitled "An Improved Safety System" at the recent Health Physics Society meeting held in Pittsburgh.

Norman Sutin (Chemistry) recently gave a seminar on "Mechanisms of Electron Transfer Reactions" at the University of Florida in Gainsville.

Sidney Thompson (Chemistry) gave a lecture on Lunar Geology to the ninth grade earth science students of the Brentwood School District. The lecture was designed to complement their classroom studies and enlarge their understanding of the forthcoming lunar landing.

Anna Scordou, a Fellow of the Greek Atomic Energy Commission's Democritus Laboratory, is visiting in the Chemistry Department to learn Mössbauer techniques in chemistry.

J. Philip Thornber (Biology) visited at the University of California, San Diego, at La Jolla, and presented a seminar on "Isolation of components involved in the primary photosynthetic processes."

Alice Burton (Biology) presented a seminar on "The intracellular development of bacteriophage ØR" at the Central Research Department, Du Pont, Wilmington, Delaware.

#### International Conference

Before the start of a session of the Irradiator Source Activity Standardization Conference participants from four nations discuss the program. They are (left to right) J. Cusack, US, BNL; C. Taylor, United Kingdom Atomic Energy Authority; R. Sauvagnac, French Atomic Energy Commission; and B. Jackson,

#### Letters To The Editor

Dear Sir:

May I submit the following correction to the caption under the photo of the Toledo scale at T-100 in the Bulletin of June 26, 1969.

This scale was originally installed in the Cold Storage Warehouse T-210 during Army occupation. After the Lab took over and T-100 became Supply and Materiel, the scale was moved to the T-100 platform

T.G. Robinson, retired

#### In Memoriam

George W. Johntry, Purchasing Division, died suddenly on June 25, 1969. He was 45

A former New York City mounted patrolman, Johntry had been employed at the Laboratory since June 1, 1967. He is survived by his wife, June, and a son and daughter.

The opening session of the Irradiator Source Activity Standardization Conference had L. Galanter, BNL (center, rear) acting as moderator. The informal conference met to discuss present source activity determination techniques used by each of the participating organizations. John Cusack, Head of HIRDL was the conference moderator.

## BERA Presents A Menu For Summer Entertainment

The Brookhaven Employees Recreation Association, in its continuing attempt to bring to the Lab the finest in professional entertainment, announces two very special events. We know you'll have trouble deciding between them, so why not choose one from Column A and one from Column B.

## The Guess Who

Sunday, July 20 - 8:30 p.m.

#### Laboratory Theatre

For rock fans this sensational "golden record" group needs no introduction. For those who still think that a rock band is a geological term, come on down and see what it's all about - like this is where it's at man. And when these cats do their thing it's sure to turn you on.

The Guess Who, a new and exciting rock group have emerged from the sophisticated wilds of Manitoba. They present a distinctive and unusual sound and an unorthodox performing style which merges with the free thinking of the now generation, and which they call "Wheatfield Soul" which is also the title of their debut album. Included in the album is their hit single "These Eyes" which brought them to the attention of the United States. The record sold over one million copies

The group, which has been a top attraction in Canada and broke in big with England last year, is now giving this country a look at their exciting performance and sound. Believing that when people go out they want something different, The Guess Who always delivers.

The Guess Who consists of four musicians. Randy Bachman - 24 years old who is group leader and lead guitarist; Burton Cummings - 20 years old, who is the lead singer and plays the piano, organ, harmonica flute and rhythm guitar; Jim Kale 24 years old who is the bassist and Gary Peterson - 23 years old who plays drums.

The Guess Who won a silver record for its first single "Shakin' All Over" and currently stars on a weekly CBC television show - "Where Its At" for which Randy wrote the theme song. He and Burton also wrote "And She's Mine," "Clock on the Wall," "Of A Dropping Pin" and "These Eyes" - all big hits.

They have recently signed a five year recording contract with RCA-Victor. The Guess Who have appeared numerous times on Upbeat T.V. Show and American Bandstand. They have also app the Felt Forum and the New York Coli-

A Reservation Schedule is maintained at the Recreation Office at 3 Center Street, Extension 2808, and reservations are now being taken for department or group activities.

## **Count Basie** and his 17 Piece Orchestra

Saturday, August 2, 1969 - 9:00 p.m. **Gymnasium** 

Summer Special Dance - Need we say more. The Count will put on a swinging show followed by the best dance music you'll ever hear.

Count Basie is best known for his loyalty to the Blues as a basic form, and his ability to produce, year after year, a series of best selling records. In 1954, when the band made its first tour of Europe, and 1955, when the Count completed his 20th year as a leader, the band featured many new stars. Among them Thad Jones, Joe Wilder, and Joe Newman on trumpets, Benny Powell and Henry Coker on trombones, Frank Foster and Frank Wess on Tenor Saxes. Most of the arrangements were by Neal Hefti and Ernie Wilkins. The Count was heard on the organ, an instrument whose rudiments he had picked up a long time ago from Fats Waller.

Count Basie has definitely established himself as a Modern Music Immortal during his 25 years as a bandleader. Now he has been rediscovered by another generation of young Americans. A measure of the esteem in which Count Basie is held by his fellow musicians can be gathered by a partial listing of the 62 who voted his band the "Greatest Ever" in the Musicals Poll in the Encyclopedia Yearbook of Jazz. Louis Armstrong, Bobby Hackett, Woody Herman, Stan Getz, Dizzy Gillespie,

Tommy and Jimmy Dorsey, Benny Carter, Eddie Condon, Nat Cole, Lee Konitz, Sonny Stitt, Errol Gardner, Andre Previn, Pete Rogolo, Bill Harris and Horace Silver are just some of the names.

Needless to say, space is limited. Tables are set for ten so get a group together and reserve now. Naturally, accommodations will be made for lesser groups or couples.

Tables can be reserved at the Recreation Office and must be accompanied by pay

Ice, pretzels and potato chips will be supplied free. Setups and beer will be available at cost and do bring your own bottle if you wish.

Admission:

Employee/Escort

Visitor

\$5.00 each \$6.00 each

#### Pistol Tournament

The date of the third match of the BNL Rifle and Pistol Club and Laboratory Police Department Annual Round Robin Pistol Tournament has been changed by popular demand.

The match previously scheduled for Saturday, July 12, 1969, has been changed to Thursday, July 10, and will start at 5:10 p.m. at the BNL Pistol Range.

#### **Jet Tickets Reservations**

Jet ticket reservations will be taken on Monday, July 21, at the Recreation Office. Watch next week's Brookhaven Bulletin for

## **Swim Program Kicks Off**

The BERA Swimming Program is off to another fine start with 250 youngsters enrolled for swimming lessons. It is a credit to the program that one hundred and four of these children are in the Non-Swimmer Class taking their first dip into the pool. Special Classes are being prepared for the Swimmer Group. This year there will be some diving and lifesaving instruction.

The Friday Pool Specials will begin on July 11th at 2:45 p.m. These will include: Inner Tube Derby, Diving and Racing, Watermelon Scrambles, Money Balloons, Penny Fetch and the Gayla Water Carnival. Watch the Brookhaven Bulletin for the big dates.

### **Summer Recreation Program** Plans A Very Big Year.

The BERA Summer Recreation Program held daily from 9:00 a.m. to 11:30 a.m. at the Recreation Building has a summer of spectacular events planned. These will include Friday Specials such as: Costume Parties, Dance Contests, Crazy Hat Contests, Wheel Parades, Treasure Hunts and Scavenger Hunts.

Family get-togethers will involve both parents and children in evening programs. Teenage Dances are on the schedule as well as Track and Field Night, Trophy Awards Night, Cook Outs, and a Hay Ride. As of now, thirty families have enrolled in the program. The Recreation Staff will entertain the Parents at a Get-Together to further explain the aims and objectives of this program.

#### **Deadline for Tennis**

Even if you aren't an Arthur Asche, a Pancho Gonzales, or a Clark Graebner there is an opportunity for you to make a name for yourself in the '69 BERA Tennis Tournament. However, there is only one more day for you to sign up. All entries close at 2:00 p.m. on July 11. Then, the Tennis Committee meets to make the drawing.

Results of the drawing will be posted in the Gymnasium by Monday noon, July 14. Each contestant is expected to consult the schedule and arrange a mutually satisfactory time with his opponent for match play during the week scheduled.

This year, the Committee has named the Men's Doubles Tournament the Walter W. Merkle Tournament to honor the memory of the veteran BNL player who died earlier this year.

The Tennis Committee wants the name of any Laboratory employee willing to assume some of the officiating chores during the tournament finals. We also need volunteers for Tennis Committee membership in order to provide new blood with fresh ideas and enthusiasın.

The present Tennis Committee, Dan Schaeffer, Helen Connell, Jim Brandon and Andy Kevey, will be working with Walter LaPrarie of the Recreation Office on the 1969 Tournament.

#### Nate Johnson Feted

Though technically a member of Plant Maintenance, Nathan Johnson was considered a part of the Accelerator Department. After 13 years of service at the AGS, on the occasion of his retirement, the AGS girls feted Nate at a luncheon at the Center on June 27. The Project had already presented him with a recliner chair and slippers which were on view in the AGS Lobby for all to see.

#### Movie Tonight

#### Soccer

The Americas 2 v. Europe 1 (1-0) Over-30's 4 v. Under-30's 3 (4-2)

On June 16th a combined North and South America team proved too strong for their European opponents, beating them by the odd goal in three. Age and experience triumphed in a close match on June 30th when the Over-30's hung on to a big early lead.

Further full practice games are scheduled every Monday evening at 5:30 p.m. on No. 3 Softball Pitch (except on 14th July when we shall play elsewhere - meet at the Gymnasium at 5:30). All interested in playing, including summer visitors and students, are urged to come along, or to contact Mike Hutchings (Ext. 7608) or Dave North (Ext. 7363).

Please Note: A meeting of all soccer players will be held on Thursday, July 24th, at 5:10 p.m. in the small seminar room, Physics Building 510, to elect officers and to discuss future matches next Fall.
